

No.	Course Title	Venue	JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEPT	OCT	NOV	DEC
TECHNICAL FUNCTIONAL														
20	Process Design Masterclass	CAPE												
21	Process Safety for OSH Practitioner	CAPE												
22	Process Safety Information for Major Hazard Installation	CAPE			16-18									
23	Qualifying Oilfield Corrosion Inhibitors (CI) in the Laboratory: Basic Theory and Practice	CAPE												
24	Quantitative EEG and Neurofeedback: Theory and Applications	CAPE			11-13									
25	Quantitative Risk Assessment	CAPE		3-5										
26	Reliability Analysis of Offshore Foundation	CAPE												
27	Relief System & Safe Operation	CAPE												
28	Response Surface Methodology: Design of Experiment and Data Analysis	UTP												
29	Seismic Assessment & Retrofitting of Existing Reinforced Concrete Structures	CAPE			18									
30	Soil Mechanics for Pipeline Design and Stress Analysis	CAPE												
31	Understanding Human Factors for Process & Manufacturing Industries	CAPE												
32	Use of Ichnology in Exploration	CAPE		19-20										
TECHNICAL BUSINESS														
33	Android Mobile App Development	CAPE												
34	Big Data Analytics for Business and Beyond - Beginner Level	CAPE			23-24			22-23			21-22		23-24	
35	Big Data Predictive Analytics Using R Language - Intermediate Level	CAPE						3-4	22-23			21-22		
36	Big Data Analytics Using Power BI - Advanced Level	CAPE												
37	Blockchain Fundamentals & Business Opportunities	CAPE												
38	Blockchain Technology and Smart Contract: A Trustworthy Business Transaction	CAPE												
41	Effective Writing and Submission of Article for Impactful Publication	UTP												
39	Energy Regulation and Policies	CAPE												
40	Engineering Project Risk Management	CAPE				15-16					12-13			8-9
